

Politicians Make Promises.

Steve Moss Gets Things Done.

More than 20 people are running for Supervisor in District 10. And if you string together all the promises made to our District by politicians past and present, they might circle the earth several times.

We've heard all the talk before. But the stakes are much higher now. District 10 is the City's future. We need a representative at City Hall who can get the job done.

That person is Steve Moss.

My name is Steve Moss, and I'm asking for your vote. What I promise to do, I've done. I have a 25 year record of turning policy into action. And I promise that I can – and will. . .

Bring new jobs to our neighborhoods.

✓ *I created green jobs in our District.*

Keep big polluters out.

✓ *I helped lead the fight that closed the Hunters Point Power Plant, I helped stop the expansion of the Potrero Power Plant and I'm working to close it for good.*

Find creative ways to help working families & small businesses in these tough economic times.

✓ *I launched programs that saved District residents hundreds of thousands of dollars on utility bills.*

Ensure that Lennar, UCSF and other new development create prosperity for our communities.

✓ *I stood up to PG&E and others to make them do just that.*

Keep the neighborhoods informed and involved.

✓ *As Publisher of the Potrero View and founder of Neighborhood Newswire I've been making sure our neighborhoods are informed and our voices are heard.*

Help others do good for the District.

✓ *I helped small Bayview churches reduce their energy and water use, saving them money and enabling them to direct more resources to our neighborhoods.*

When you hear me make a promise, ask me how I'll keep it. I'll have a real answer for you.

I live, work and raise my family here. I'm not using this race as a stepping stone. I'm running because the future of this District is my family's future too, and I will work to make sure promises made to this community are kept. With your help I can do that.

More than 1,000 residents signed a petition to get me on the ballot. I'm the only District 10 candidate to achieve that goal. I'm supported by neighbors, local pastors, community businesses, parent-teacher advocates, healthcare workers and more.
